

AICOM CPD- Content Processing & Development

Developing a presentable material is not easy and the most crucial element of the process is editing or proofreading. At **AICOM**, we understand the fundamentals of the whole content development process. Our ability to assess and synthesize your current requirements in taking the first strategic steps necessary to create these ideas to profitable business tools ensures efficiency and cost-effectivity. We have experienced writers and editors serving multinational accounts from various fields worldwide who can cultivate creative, compelling and effective content.

- Graduates with Degree in Journalism, Linguistics, Broadcasting, Communications Arts or similar discipline from Top Universities
- With solid background in writing, editing & proofreading skills and proven English grammar proficiency
- Advanced Internet Research Capabilities
- Multinational accounts experience
- Result-driven writers and editors
- Guaranteed 24/7 Client Support
